

Interview With Wendy

Mall Tenant System – MVP Requirements Questionnaire

Tenant & Unit Structure

1.Question: How many tenants and units are currently active?

Answer: there are 10 units on the ground floor with a total of 8 tenants. There are 10 units on the first floor and 7 tenants. Lastly there are 9 units on the second floor holding 5 tenants.

2. Question: What core information do you track for each tenant today?

Answer: Name of company, contact information, company docs e.g tax clearance/ID's of directors.

3. Question: What information do you track for each shop/unit?

Answer: Dimensions, Rent amount incl vat, shop Number, operational cost.

4. Question: Do units have different rent amounts or categories?

Answer: The only category is that the second floor is for offices but no strict categories yet.

Lease & Billing Cycle

5. Question: How do you currently record lease agreements?

Answer: Currently they don't record any lease agreements yet because they are moving from having tenants managed by seef agency.. And migrating towards managing the tenants themselves. They are preparing new leases to be handed out in the next month.

6. Question: What details matter most when billing tenants?

Answer: tenant balances to date including any arrears, tenant payment history which is currently all done on an excel sheet.

7. Question: How often do you bill tenants?

Answer: tenants are billed every month on the 26th.

8. Question: On which date do you prepare or send statements?

Answer: statements are sent every month on the 27th

Monthly Statements & Invoices

9. Question: What format do you currently send statements in?

Answer: paper based statements which are printouts of the excel spreadsheet they use to track each account.

10. Question: What items must appear on a tenant's monthly statement?

Answer: balance carried down, previous payment history, name of tenant.

11. Question: Should statements generate automatically or manually?

Answer: automatically

12. Question: How are late fees or penalties calculated today?

Answer: late fees and penalties are currently not calculated as they haven't decided on fees as well as they are waiting to hand out tenancy agreements which will state the fees.

Payments & Reconciliation

13. Question: How do you receive payments?

Answer: they receive cash or bank transfer

14. Question: How do you record payments today?

Answer: payments are recorded in a receipt book with the tenant and payment details.

15. Question: What information must be captured when a tenant pays?

Answer: date, name of tenant, month or period paid for, payment type, receipt number.

16. Question: How do you currently match a tenant's payment to the correct invoice or outstanding balance?

Answer: to match payments to tenants they use excel and receipt numbers inside an excel sheet.

Arrears & Follow-Up

17. Question: How do you track overdue tenants?

Answer: they use excel spreadsheets to track pretty much all their transactions.

18. Question: What arrears categories do you use? (0–30, 30–60, >60)

Answer: currently no categories for arrears.

19. Question: How do you decide when an overdue tenant moves into the next arrears category?

Answer: none

20. Question: How do you follow up? (WhatsApp, email, calls)

Answer: when statements are given out that's essentially how they follow up, Wendy works onsite and will approach each tenant physically with their printed out statement and this is where she will ask for the balance. Very much a manual process.

21. Question: Do you want automatic reminders or manual control?

Answer: automatic if possible.

Reporting & Visibility

22. Question: Which reports matter most each month?

Answer: monthly rental income sheet which is an excel spreadsheet of all accounts compiled. This is sent to the directors of the property. A monthly recon including the expenses incurred by the business is also sent to directors. Also the individual tenant statements are sent out like above to each tenant.

23. Question: What metrics would help you manage tenants more easily?

User Access & Permissions

24. Question: Who should have system access?

Answer: the owner of the building should have access as well as wendy the building manager and myself the management/IT department. And later to add tenants so they can view their accounts and balances.

25. Question: What level of access should each user have?

Answer: respective access as management should have full access read write and tenants to have just read of their accounts.

Delivery & Communication Preferences

26. Question: How should statements be delivered?

Answer: not sure yet but maybe email, whatsapp and also physically.

27. Question: Do you need a tenant portal later?

Answer: yes ideally.

MVP Boundaries

28. Question: What are the top 3 problems you want solved immediately?

Answer: paper based record/data sharing, lots of manual accounting and prone to error, heavily excel based, must be cloud based.

29. Question: What can wait for later versions?

Answer: tenant onboarding, staff management, payment integration.
